

FAMILY-OWNED IN SPRING LAKE, MICHIGAN

MICHIGAN SHIPPERS

S U P P L Y

The Brand Bible

Custom labels that help small brands get
noticed. Printed by hand, by family, since 1959.

EDITION 01 · 2026 · 67 YEARS IN BUSINESS · INTERNAL & PARTNER USE

A family business built on people, not just presses.

Anyone can sell you a roll of labels.
We help you build a **brand**, and
we've done it for 67 years.

01

The one-liner

Michigan Shippers Supply is a family-owned custom label printer in Spring Lake, Michigan. We design and print the labels that turn small products into real brands, **and we've been doing it since 1959.**

02

What we actually sell

Not just ink on a roll. We sell **a label that does its job**, looks like the quality inside, passes the rules, and makes a maker proud to put it on the shelf. Every product becomes a billboard for the brand.

03

Who we serve

Startups, makers, and growing product brands across **Michigan, Indiana, Ohio, and Illinois**. Food and beverage makers, candy, wine and craft drinks, plus retail and warehouse barcode and shipping needs.

04

Why it matters

We're a small business too, so we get it. We're **small enough to care about your first run, experienced enough to handle your biggest order**. Our name is on every roll we ship.

1959

The label partner the big self-serve sites can't be.

The label market is crowded with cheap, fast, click-to-order websites and with big printers that want big minimums. We win in the middle, where real brands get built.

What we are

The affordable, experienced, regional label partner for small and growing product brands. Real people who help you get it right, real design help, flexible run sizes, and compliance know-how, **without big-printer pricing or scary minimums.**

What we are not

We are not the cheapest faceless upload-and-pray website, and we don't pretend to be. **We don't compete on being the cheapest click.** We compete on getting your label, and your brand, genuinely right.

Edge 01

Heritage

Family-owned and operated since 1959. A trust asset almost none of our competitors can claim.

Edge 02

Flexibility

Two presses under one roof, so the short startup run and the long production run both get the right method. Never an upsell.

Edge 03

Closeness

An in-house design team and a dedicated specialist who learn your business. Regional, responsive, and on a first-name basis.

An isometric box, lined like a fresh print pulling off the press and grounded by a press-blue base. It reads as a package and a printed label at once, the two things this company has always made. Keep it confident, keep it square, keep it clear.

STACKED · ON PAPER

KNOCKOUT · ON NAVY

THE MARK · ALONE

Clear space & minimum size

Hold clear space of at least the height of the box mark on every side. Never crowd the logo with text, photos, or other logos. Keep the wordmark legible: never place the horizontal lockup below about 130px wide on screen, or 1 inch in print.

ALWAYS

- ✓ Lead with the full lockup, mark plus wordmark, for first impressions.
- ✓ Use the knockout version on navy and other dark grounds.
- ✓ Keep the box mark's print lines and blue base intact.
- ✓ Give it room to breathe.

NEVER

- ✗ Recolor the mark or swap the press blue for another color.
- ✗ Stretch, skew, rotate, or add drop shadows and outlines.
- ✗ Rebuild the wordmark in a different typeface.
- ✗ Place it on a busy photo with no clear, calm backing.

— THE PALETTE

Color

Three families. **Heritage neutrals** are the paper and ink everything sits on. **Press Blue** is the signature, pulled straight from the mark. **White-Glove Gold** is a rare premium accent, used only for the managed program.

Heritage neutrals paper, ink, and the grounds we build on

Heritage Cream #F4F1EA Primary paper / background	Cool Mist #E9EBEE Alternate panels	Brand Navy ★ #1C2C3E Headlines / dark grounds	Steel Grey #6C7A85 The mark's faces / muted text

Press Blue the signature, taken from the logo's base

 Press Blue ★ #2F7DC1 Primary brand accent	 Deep Press #215E93 Links, buttons, hovers	 Sky Tint #7BB6E6 Accents on navy grounds	 Slate Ink #222E39 Body text on paper
---	---	---	--

White-Glove Gold premium accent, used sparingly

 Glove Gold #CDA85E Managed-program accent only	 Light Gold #ECD6A4 Gold text on navy	 Deep Gold #B58A3C Edges & shadow	 Rule Line #D7D3CA Hairlines & borders
--	--	---	---

Gold is a guest, not a host. Reserve it for the White-Glove Managed Inventory program so it stays special. Everyday materials lead with Press Blue on Heritage Cream, anchored by Brand Navy.

— THE TYPE SYSTEM

Typography

Two typefaces do all the work, and they're built into every device, so the brand reads the same everywhere with nothing to download. Serif for heritage and headlines, sans for clean, plain talk.

DISPLAY · HEADLINES · THE WORDMARK

Georgia

ABCDEFGHIJKLMNOPQRSTUVWXYZ · 0123456789

Use for: headlines, the MICHIGAN SHIPPERS wordmark, big statements, and pull quotes. It carries the 67 years. Set it in navy, bold, with comfortable line height.

BODY · LABELS · EVERYTHING READABLE

Helvetica / System Sans

ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnop · 0123456789

Use for: body copy, captions, forms, and the SUPPLY · EST. 1959 line under the wordmark, set in wide letter-spaced caps. This is the voice talking plainly. Weights 400 to 800.

One rule above all: don't mix in random fonts. Georgia and the system sans cover every job. The wordmark's caps-and-spacing treatment of "SUPPLY · EST. 1959" is part of the logo, never retype it freehand in body copy.

— HOW WE TALK

Brand voice

We talk like a **neighbor** who happens to be the **expert**, warm, plain, and never pushy.

TO NE

Warm

Plain-spoken

Reassuring

Proud of the work

Helpful, not salesy

Never corporate

SIGNATURE MOVES

Explain flexo vs. digital in human terms

Lead with heritage

Reassure on compliance

Tasteful ALL-CAPS for emphasis

WE SAY

"We're a small business too, so we get it."

"Small enough to care about your first run, experienced enough to handle your biggest order."

"Every product becomes a billboard for your brand."

"Never an upsell." · "We'll make sure it's right."

WE DON'T SAY

No hype, no jargon, no pressure. We don't call ourselves "cheap," we say **fair**. We don't oversell, we explain. We never make a maker feel small for asking, or for ordering small.

A label does three jobs, and our copy keeps coming back to them: it earns attention on a crowded shelf, it meets the rules (food, beverage, and product compliance), and it builds the brand. Sell the job, not the ink.

Labels for every product you make

Designed and printed in house, on the right press for the job. From a first short run of candy labels to long production rolls and the foil lids most printers won't touch.

Product labels

Shelf-ready labels that look like the quality inside.

Wine, beer & beverage

Premium bottle and can labels, batch after batch.

Candy

A named niche we've printed for years.

Food & packaging

Built right for FDA and regulatory compliance.

Foil lids & tin

Keurig-compatible foil lids, plus metal and tin.

Barcode & shipping

Retail and warehouse ID, with your brand on it.

LONG RUNS

Flexographic press

Efficient and consistent for larger production runs. The workhorse for growing and established brands that need volume, quality, and a reliable repeat.

SHORT RUNS

Digital press

Fast turns, variable data, and friendly minimums for startups and quick jobs. The right method for a first run, a test, or a small batch, with no big upfront commitment.

This dual capability is a real differentiator, say it plainly. We give every customer the right method for the job, never an upsell, plus an in-house design team that can start from a sketch, an idea, or nothing at all.

Never wait. Never compromise.

Our flagship managed program is the one part of the brand that wears gold. It's white-glove from day one, and it's the partnership the big self-serve printers simply can't offer.

★ MANAGED INVENTORY & JUST-IN-TIME PRINTING

White-glove label management, built around one business, yours.

Keep only a day's or a week's supply on the shelf. We hold the rest and print to real demand, in real time, so a customer frees up cash and space, skips big upfront runs, and never runs out.

Dedicated specialist

One point of contact who knows your products, your timing, and your standards.

Zero downtime

Stock is held and ready, so production never pauses waiting on labels.

Printed on demand

Produced in real time to actual usage. No overruns, no dead stock.

No compromise

Full custom quality on every batch, exactly to spec, every time.

Brand rule: gold, the rotating ring, and "white-glove" language belong to this program only. Used everywhere, it would mean nothing. Used here, it signals the highest level of attention to a customer's brand, with zero wasted downtime, ever.

You've seen our work on the shelf

From beloved national names to fast-growing small brands, these are a few of the companies that trust us to print their single-serve coffee and cocoa lids.

When we show proof, we show the real product, never stock mockups.

Crazy Cups · Chocolate
Raspberry Truffle

Green Mountain Coffee · Lake &
Lodge

Brooklyn Bean · Carnival Hot
Cocoa

Mucho Gusto · Chocolate con
Leche

Crazy Cups · Island Rum
Coconut

Roasty Buds · Single-Serve
Coffee

Two presses, one standard: excellent. Short runs digital, long runs flexographic.

— THE RULES

Do & don't

The shortlist that keeps every quote, label, web page, and conversation unmistakably Michigan Shippers Supply.

✓ Always

- Lead with heritage: family-owned since 1959.
- Press Blue on Heritage Cream, anchored by Brand Navy.
- Georgia for headlines, system sans for everything readable.
- Talk plainly and reassure on compliance.
- Show real printed product as proof.
- Give the customer the right press, never an upsell.
- Reserve gold for the White-Glove program.

✗ Never

- Sound corporate, hypey, or high-pressure.
- Recolor, stretch, or rebuild the logo.
- Compete on being "the cheapest click."
- Use gold or "white-glove" language off-program.
- Mix in random fonts or stock mockups.
- Run inconsistent name, address, or phone anywhere.
- Make a maker feel small for ordering small.

A note on the name: the brand and marketing name is **Michigan Shippers Supply** (no apostrophe), matching the logo and the website. The legal name, **Michigan Shippers' Supply, Inc.**, keeps its apostrophe for contracts and invoices. Pick one in public and stay consistent, mismatched name, address, and phone data is the single most common thing that buries a local business in search.

One company, one set of facts.

Use these exactly as written, on the website, in listings, on every label and invoice. Consistency is a brand asset.
